

BHARATH SIMHA REDDY V

FREELANCE SOFTWARE DEVELOPER & TECHNICAL TRAINER

Bengaluru, India • +91 6362568172 • bharathsimhareddyv19@gmail.com
[linkedin.com/in/bharath-reddy-881375342](https://www.linkedin.com/in/bharath-reddy-881375342) • github.com/bharathreddy20031910

PROFESSIONAL SUMMARY

Versatile and results-driven **Software Developer and Technical Trainer** with over 3 years of production-level industry experience specializing in full-stack engineering (MERN/MEAN stacks) and basic DevOps operations. Successfully engineered, architected, and managed **more than 15 full-stack MERN applications**, handling the end-to-end delivery lifecycle from initial database structuring to cloud deployment. Adept at handling essential DevOps practices, including foundational server maintenance, environment configurations, and continuous delivery setups, while simultaneously training over 100+ professionals and engineering students across premier institutions.

TECHNICAL SKILLS

Front-End Technologies	JavaScript (ES6+), React.js (Hooks, Context API, Redux), Angular CLI, React Native, HTML5, CSS3, Bootstrap, Responsive Web Design
Back-End & Database	Node.js, Express.js, REST API Development, Python, MongoDB, PostgreSQL, NoSQL
DevOps & Server Ops	Basic Server Maintenance & Operations, AWS, Azure (Basics), CI/CD (Jenkins, GitHub Actions), Docker, Kubernetes (K8s), Linux System Administration
Build Tools & IDEs	NPM, Maven, Gradle, Git, GitHub, VS Code, Cursor, STS, Anaconda

PROFESSIONAL EXPERIENCE

Freelance Software Developer & Technical Trainer Sep 2025 – Present | Remote / Bengaluru

- **Full-Stack Engineering:** Architected, built, and optimized 15+ real-world MERN stack applications (including e-commerce, real-time messaging, and interactive portals) tailored to custom client requirements.
- **Server & Infrastructure Operations:** Handled fundamental server maintenance, configured Linux environments, managed environment secure credentials, and oversaw basic cloud deployment pipelines on AWS.
- **Institutional Training Operations:** Contracted by elite academic institutions to deliver technical workshops:
 - *Lovely Professional University (Punjab):* Mentored core MERN stack development tracks, foundational DevOps methodologies, and AWS hosting basics.
 - *Sambram Institute of Technology (Bangalore):* Designed intensive bootcamps on MERN development, Python, Machine Learning basics, and infrastructure deployment.
 - *PES College of Engineering (Mandya):* Delivered front-end engineering curricula powered by modern UI frameworks under the Infosys Foundation banner.
 - *Other Partners:* Conducted customized developer tracks at DevLustro Technologies (Bangalore), Sri Krishna College of Engineering (Coimbatore), MVSR Engineering College (Hyderabad), and RR Group (Lucknow).

PCS Global Pvt Ltd • Software Engineer & Technical Trainer

May 2025 – Sep 2025 | Bengaluru, KA

- Developed clean, modular web application features leveraging modern MERN and MEAN stacks, adhering strictly to enterprise version control policies via Git/GitHub.
- Designed and documented highly performant REST APIs, optimized MongoDB queries, and structured scalable relational/non-relational database models.
- Successfully upskilled 100+ professionals through rigorous classroom workshops, emphasizing practical software development lifecycles (SDLC) and clean coding practices.

Freelance React Trainer

June 2024 – Feb 2025 | Remote

- Delivered high-density technical training bootcamps across specialized colleges, guiding students through practical web application milestones.
- *Bankura Unnayani Institute of Engineering (West Bengal)*: Taught full-stack integration patterns inside the MERN environment.
- *Sardar Patel College (Hyderabad)*: Facilitated structured labs covering modular user interface layouts utilizing Angular CLI and React.js.

MS Soft Technologies • Software Developer & Technical Trainer

Mar 2023 – May 2024 | Hyderabad, TS

- Engineered highly interactive client-facing interface layouts using React.js components, robust routing schemas, and global state controls (Context API and Hooks).
- Contributed core modules to internal software products while onboarding and leading junior developers through real-time code reviews.
- Conducted programmatic bug tracking, unit testing, and structured code diagnostics sessions to optimize production-ready applications.

EDUCATION

Bachelor of Science (B.Sc.) in MPCs (Mathematics, Physics, Computer Science)
Sardar Patel College, Hyderabad

CGPA: 8.16

KEY COMPETENCIES & SOFT SKILLS

- **Full-Cycle Project Delivery:** Proficient at translating product definitions into clean, functional code across front-end and back-end ecosystems.
- **Technical Pedagogy & Mentorship:** Exceptional capability to clearly dissect advanced architectures (like Docker layers, Git merges, or non-blocking IO cycles) into incremental, accessible instructions.
- **System Diagnostics:** Strategic troubleshooter capable of identifying logic bugs, handling runtime errors, and ensuring continuous server stability.
